

WCM Global Equity Fund*

Q1 2021

*A sub-fund of Heptagon Fund plc

The Fund has been classified as an Article 6 for the purposes of the EU's Sustainable Finance Disclosure Regulation ('SFDR'). The Fund takes sustainability criteria into account within the investment process but does not have sustainable investment as its objective and does not promote environmental or social characteristics.

Important Information

The following presentation provides information on the WCM Global Equity Fund (the “Fund”), a sub-fund of Heptagon Fund Plc which is an open-ended umbrella type investment company authorised pursuant to UCITS regulations. Heptagon Capital Limited (“Heptagon”) is the Investment Manager and WCM Investment Management (“WCM”) is the Sub-Investment Manager meaning WCM exercises discretionary investment authority over the Fund.

WCM has been managing its Quality Global Growth Strategy since 2008. The Fund has the same Portfolio Managers and investment team, the same investment objective and uses the same philosophy and strategy as the WCM Quality Global Growth Strategy. Since the Fund has a relatively short time period, the following presentation makes extensive reference to the WCM Quality Global Growth Composite (“Composite”) to provide a better understanding of how the team has managed this strategy over a longer time period. The Composite contains fully discretionary Quality Global Growth equity accounts. The Composite was created 31 March 2008.

WCM manages the Fund according to the same investment principles, philosophy and execution of approach as those used for the Composite, however it should be noted that due to certain factors including, but not limited to, differences in cash flows, fees, expenses, performance calculation methods, and portfolio sizes and composition, there may be variances between the investment returns demonstrated by each portfolio in the future.

For the same reason, although the following presentation makes extensive reference to the performance of WCM as sub-investment manager of the Composite, the data for the Composite is provided purely for indicative purposes to demonstrate how WCM has performed historically in its role as investment advisor to this specific strategy. The performance for the Composite is not the performance of the Fund and is not an indication of how the Fund would have performed in the past or will perform in the future. This material should not be viewed as a solicitation or offer of services by WCM. It is provided for informational purposes only. The information contained herein does not constitute an offer to sell or the solicitation of an offer to purchase any U.S. registered security or U.S. investment product.

Any performance data quoted represents past performance. Performance figures are also shown for the MSCI® All Country World Index (gross) Return, (“**MSCI AC World Index**”). The MSCI® All Country World Index (gross) is a trademark/service mark of Morgan Stanley Capital International. The MSCI® All Country World Index (gross) is designed to measure global developed and emerging equity market performance. The index is unmanaged; is market-value weighted; and is shown for illustration only; and cannot be purchased directly by investors.

The investment return and principal value of an investment will fluctuate so that the investor's shares, when redeemed, may be worth more or less than their original cost. Any investor should consider the investment objectives, risks and charges and expenses of the Fund carefully before investing. The Funds' prospectus and simplified prospectus contain these and other important information about the Fund. The prospectus should be read carefully before investing. Please email london@heptagon-capital.com for a free copy of these documents. WCM claims compliance with the Global Investment Performance Standards (GIPS®).

Investment Philosophy & Process

Investment Philosophy Summary

Moats

...businesses with durable and growing competitive advantages.

Culture

...great people, empowered and engaged, define success.

Tailwinds

...businesses benefiting from long-lasting global trends.

Focused

...only best ideas; outperform with controlled risk.

Valuation

...great growth companies at fair prices provides margin of safety.

An organization's culture can be its best competitive weapon. Effective cultures operate below competitors' radar screens. They are hard to replicate without a wide-ranging set of changes in a competitor's internal strategy. Best of all, in today's interactive, interlinked, Internet-driven competitive world, unlike information of a strategic nature, they can't be hacked.

*James L.Heskett, Professor Emeritus, Harvard Business School author of
The Culture Cycle (FT Press, 2012)*

Investment Philosophy

Moats

Economies of scale
Intellectual property
Best-in-class reputation
Sticky relationships with customers
Network effect
Low-cost provider
Legal or regulatory

Culture

First, One Must 'Walk the Talk'

- Headquartered in Laguna Beach, CA
- Chief Culture Officer

Second, Focused Culture Research

- Full-time Business Culture Analyst
- Formal collaboration with Dr. Heskett and other experts has led to a robust culture-assessment framework embedded within our research process

Tailwinds

Demographics
Software eating the world
Electronification of everything
E-commerce
Automation
Conspicuous consumption
Health & wellness
Emerging global middle class
Digital payments

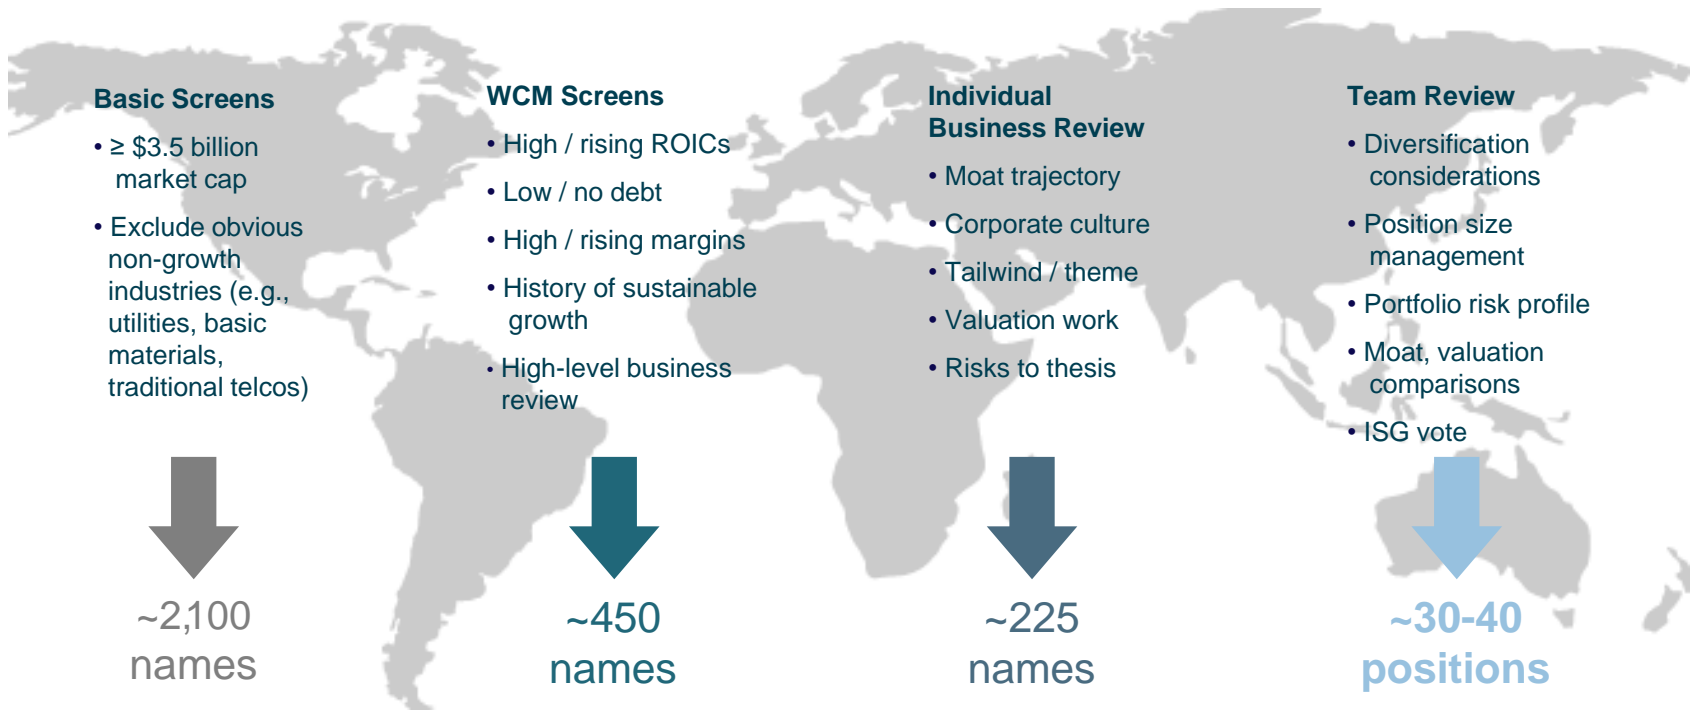

Focused

We refuse to dilute our best ideas with inferior ones...
...so we invest in a focused fashion.

Valuation

Drives us to great growth companies at fair prices
Contributes to margin of safety
Helps with downside protection
Not "buy and hold"; rather, "buy and manage"

Investment Process Summary

Step 1: Idea Generation

Multi-disciplinary process combining thematic and company-specific influences

Personal experience informed by a well-defined template

- Live, listen and learn
- Read, study and reflect
- Identify and consider the big ideas
- Follow respected thinkers and investment greats

Pattern Recognition

- Identify companies, regardless of industry and region, that have been in similar situations – *“History may not repeat, but it rhymes.”*
- This is most conducive to a generalist, go-anywhere approach

Step 2: Quantitative Analysis

Backward-looking screens help narrow global universe

Basic screen examples

- Eliminate market cap below \$3.5 billion
- Eliminate non-growth industries

Result: Only about 2,100 names

Quality growth screen examples

- High / rising returns on invested capital in excess of cost of capital
- Low / no debt
- High / rising margins
- History of sustainable growth

End result: Only about 450 names for consideration

Step 3: Fundamental Analysis

Protected by a growing economic moat?

- Strong competitive position
- Solid evidence of strengthening advantages

Robust culture driven by visionary leadership?

- Culture is well-articulated, consistently applied
- Culture supports and sustains the moat

Healthy tailwind?

- Clear and simple business model
- Understandable, high-quality, in-demand products / services
- Positioned for significant, long-term growth

Attractive valuation?

- Multi-faceted, case-by-case approach to quantitative valuations
- Corroboration with alternate and/or heuristic valuation techniques

The Investment Strategy Group goes through a lengthy, arduous process involving both quantitative and qualitative comparisons. A new holding makes it into the portfolio only after intense debate regarding its relative merits in every important area.

Step 4: Portfolio Construction

- Initial positions: 2–5%
- Maximum position size: ~10%
- Maximum industry exposure: ~15%
- Exposure to at least: 15 industries
- Maximum sector size: ~35%
- Maximum emerging markets exposure: ~35% by domicile
- Other construction factors: currencies, regions, tailwinds, moat typologies

Proper risk controls also include quality of the investment, market capitalization of the company, trustworthiness of management, type and condition of the industry and adherence to a well-defined sell discipline.

Step 5: Sell Discipline

- Moat is no longer expanding
- More attractive company
- Culture is challenged
- Valuation is excessive

Performance – WCM Quality Global Growth Composite

Performance of WCM Quality Global Growth Composite

as of 31/12/2020 (gross of fees)

Since the start of his investment career in 2009, Michael's experience includes positions as Portfolio Manager / Equity Research Analyst at Investec Asset Management (London), as Equity Research Analyst at RMB Asset Management (Johannesburg), and as Actuarial Consultant at Deloitte. He earned a BSc in Statistics, and a BSc in Actuarial Science (with honors), from the University of the Witwatersrand (Johannesburg).

WILLIAM “J.B.” HORNER – Business Culture Analyst

William joined WCM in 2014; his primary responsibility is to facilitate the continuing development of our corporate culture research process. His 7 years of industry experience include positions as Trading Associate and Portfolio Associate at WCM Investment Management, before his promotion to Business Culture Analyst in 2016. William earned his B.B.A. in Economics from the University of San Diego (California) and his M.A. in Clinical Psychology from Columbia University (New York).

Investment Professionals

MILES BREDENOORD – Special Projects Analyst

Miles joined WCM in 2019; his primary responsibility is to lead data-centric projects that augment the research process for our global, fundamental growth strategies. Since the start of his investment career in 2011, Miles' experience includes a position as Portfolio Strategies at Oppenheimer Funds, and a position as Research Associate at Jefferies Group, LLC in New York. Earlier, he held multiple positions with FactSet Research Systems, Inc. in the USA and Australia. Miles graduated from the University of California, Berkeley with a B.A. in Economics.

JON TRINGALE – Client Portfolio Manager

Jon joined WCM in 2015; as a non-voting participant in the Investment Strategy Group for our global, fundamental growth strategies. Jon is responsible for communicating the firm's investment thinking while servicing client relationships with investment consultants, endowments, foundations, family offices, and other institutions. His 12 years of investment industry experience include a position as Vice President at Gerson Lehrman Group and, earlier, on the trading floor with Wedbush Securities. Jon earned his B.S. in Finance from San Jose (California) State University, where he graduated cum laude.

RYAN QUINN – Client Portfolio Manager

Ryan joined WCM in 2019; as a non-voting participant in the ISG for our global, fundamental growth strategies, Ryan is responsible for communicating the firm's investment thinking while servicing client relationships with investment consultants, endowments, foundations, family offices, and other institutions. Since he began his investment career in 1997, Ryan's experience includes positions trading equities on the floor of the New York Stock Exchange for the likes of Merrill Lynch, Bear Stearns, and Deutsche Bank, followed by a decade researching investment managers and advising institutional investors on asset allocation / investment selection at Monticello Associates and Canterbury Consulting. Most recently, Ryan worked at Alternative Investment Management, a billion dollar fund-of-funds, where he invested in hedge funds and private equity on behalf of high net worth individuals, families, and institutions. Ryan earned his B.A. in History from Colgate University (New York), and his M.B.A. / M.S.F. from the Daniels College of Business at the University of Denver (Colorado).

BRIAN HUERTA – Client Portfolio Manager

Brian joined WCM in 2020; his primary responsibility is communicating the firm's investment thinking while servicing investment consultants and institutional clients. Since he began his investment career in 1997, Brian worked as Managing Director for Bank of America Merrill Lynch, overseeing the firm's institutional relationships for the Western region. Brian earned his B.S. in Business Administration from the University of Southern California.

N.A. – Information is not statistically meaningful due to an insufficient number of portfolios in the composite for the entire year.

¹ Assets figures on this page present GIPS®-eligible assets and do not include model assets. Assets figures elsewhere in this document may include model assets.

² Annual performance for 2008 is not shown due to the composite inception date of 31 Mar 2008.

Past performance is no guide to future performance and the value of investments and income from them can fall as well as rise.

WCM Quality Global Growth Composite Disclosure

Quality Global Growth (QGG) Composite contains fully discretionary QGG equity accounts. WCM seeks to invest in global growth companies greater than \$3.5 billion in market capitalization. WCM also seeks companies with high or rising returns on invested capital in excess of cost of capital, companies with no or low debt, high or rising margins, and a history of sustainable growth. For comparison purposes, the composite is measured against the MCSI All-Country World Index (ACWI). In presentations shown prior to 31 Dec 2013, the composite was compared against the MSCI World Index. The benchmark was changed to more appropriately reflect the developed and emerging markets exposure of the composite. Additional information regarding the prior benchmark is available upon request. The minimum account size for this composite is \$1 million in equities. Prior to 1 Jan 2014 there was no minimum account size for this composite.

As of 1 Jan 2017 the composite was redefined to only include accounts eligible to invest in issuers' ordinary shares. Previously, the composite also included accounts that restricted investments to US-denominated securities. The composite was redefined to reflect the larger opportunity set available to our ORD-eligible accounts.

WCM is an equity portfolio, fixed income portfolio and balanced portfolio investment manager. WCM is registered with the U.S. Securities and Exchange Commission and is defined as an independent investment management firm that is not affiliated with any parent organization. Total Product Assets are defined to include all client assets managed to the QGG style. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm.

For comparison purposes, performance is presented gross of foreign withholding taxes on dividends, interest income, and capital gains for the composite and the benchmark (ACWI). Accounts experiencing cash flows equal to or greater than 20% of their value are temporarily removed from the composite during the month in which the cash flows occur. Accounts rejoin the composite the following month. In instances where assets are being transferred into or out of an account, the account will not be removed from the composite, even if the flow is equal to or greater than 20% of the account value, if the complete transfer (all assets) matches the account's strategy/model on the day of transfer. Additional information regarding the treatment of significant cash flows is available upon request. Past performance is not indicative of future results.

The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of fees and include the reinvestment of all income. Net of fees is calculated using actual management fees.

The annual composite dispersion presented is an asset-weighted standard deviation calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

The management fee schedule is as follows: 1.00% on all assets. Fees are negotiable.

The Quality Global Growth (QGG) Composite was created 31 Mar 2008. WCM Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS® standards. WCM Investment Management has been independently verified for the periods 1 Jan 2017 through 31 Dec 2019 by ACA Performance Services, LLC and 1 Jan 1993 through 31 Dec 2016 by Ashland Partners & Company LLP. A copy of the verification report is available upon request.

Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. Verification does not ensure the accuracy of any specific composite presentation.

Past performance is no guide to future performance and the value of investments and income from them can fall as well as rise.

Heptagon Capital Limited, Heptagon Capital LLP and its Partners disclaim any and all liability relating to these materials, including, without limitation, any express or implied representations or warranties for statements or errors contained in, and omissions from, these materials. Certain assumptions have been made, and/or parameters set, in the preparation of these materials which have resulted in the returns detailed herein, and no representation or warranty is made that any returns indicated will be achieved. Changes to assumptions or parameters may have a material impact on the returns detailed. This document should not be copied to any other person without our express consent. This document should not be considered an offer to buy or sell investments.

Heptagon Capital Limited has issued this communication as investment manager for Heptagon Fund PLC and is licensed to conduct investment services by the Malta Financial Services Authority. Heptagon Capital LLP is authorised and regulated in the UK by the Financial Conduct Authority.

The results given in this document are based solely upon historical fund performance as gathered and supplied by Euro-VL, BBH, Morningstar and Bloomberg. That past performance has not been independently verified by either Heptagon Capital Limited or Heptagon Capital LLP. It is not intended to predict or depict the future performance of any investment.

The information contained herein is provided for informational purposes only, is not complete, and does not contain certain material information about the funds, including important disclosures and risk factors associated with an investment in the funds. Before making an investment in any fund, prospective investors are advised to thoroughly and carefully review the fund's Prospectus with their financial, legal and tax advisors to determine whether an investment is suitable for them. An investment in these funds is not suitable for all investors.

The distribution of information contained herein and the sale of shares in the Funds may be subject to legal or regulatory restrictions in certain countries in which users are resident or of which they are citizens. In particular, neither the shares in the Funds nor the Funds themselves have been registered under any United States ("US") Securities legislation and are not available for purchase by US Persons.

The Fund takes sustainability risks into account within the investment process, and this is disclosed in accordance with Article 6 requirements of the Sustainable Finance Disclosure Regulation ('SFDR') in the Fund's [prospectus](#). However, the Fund does not have as its objective sustainable investment and does not promote environmental or social characteristics for the purposes of the SFDR. Sustainability risks may occur in a manner that is not anticipated by the Sub-Investment Manager, there may be a sudden, material negative impact on the value of an investment and hence the returns of the Fund. As a result of the assessment of the impact of sustainability risks on the returns of the Fund, the Sub-Investment Manager aims to identify that the Fund may be exposed to sustainability risks and will aim to mitigate those risks.
